My worry: I think GWS has already imposed public enough on them and will not go to Congress.

[Patrick Day, April 26, 07: Most Dems are only trying to get prohibited mileage out of Bush's mess in Iraq, for 2008: not to end it.

(How much self-deception is going on? Okey?)

Pelosi must bend to send genes, to some extent.

"How will X affect votes in '08?"

[I don't want to wait for the smoking gun test exposes US nuclear policy to be a mushroom cloud.]

There is an attack on them or another  
9-11: out of the result is regional war + dictatorship  
Iran / Congress will have done nothing  
to avert it & say of it,

It is day with now, to move went  
means to a polar state  
or the likelihood of a full polar state  
or to avert an attack on them

To Barth: If Adm. Fallon is dead-set  
against attacking Iraq, under any foreseeable  
circumstances (told to Col. Patrick Long)

Why did he tell the joke?

Why was an admiral given it?

Does he think

Why did they give it to him?

GP predicts: If carried "out of the box," to  
attack, Fallon would resign and go  
public. "Causing national uproar,  
transforming politics.

an attack would do so by itself...  
(This Lebanon was probably my scenario - see US fees..)

What if: Cd = Mohammad

see friend - Lebanon: I told him Marine Lt. ordered to assassinate.

OSI calls 9-11-II (to avert attack on them)
